The collection sees the return of some familiar members of the Robertson company, including Strindberg - heading, as usual, towards calamity - and the shape-shifter Dionysus. Four loose retellings of stories of the Greek god form pillars for the book, alongside four short Ovid versions. Threaded through these are a series of pieces about the poet's childhood on the north-east coast, his fascination with the sea and the islands of Scotland. However, the reader will also discover a distinct new note in Robertson's austere but ravishing poetry: towards the possibility of contentment - a house, a door, a key - finding, at last, a 'happiness of the hand and heart'. Magisterial in its command and range, indelibly moving and memorable in its speech, 'Hill of Doors' is Robin Robertson's most powerful book to date.

Pluto

Maxwell, Glyn

Pluto - the non-planet, the ex-planet - is the dominant celestial influence in Glyn Maxwell's new collection: 'Pluto' is a book about change, the before-and-after of love, the aftermath of loss: change of status and station, home and place, of tense and pronoun. It also marks a radical departure for one of our most celebrated English poets: his formidable skills as a rhetorician and dramatist are suddenly directed inwardly, to produce poems of brutal self-examination, raw elegy, and strange songs of the kind those bruising encounters often leave us singing to ourselves. In 'Pluto', Maxwell has set out something like a metaphysics of the affair; the result is a lean and concentrated poetry of great emotional power, and far and away Glyn Maxwell's most directly personal work to date.

Hemon, Aleksander

Aleksandar Hemon's lives begin in Sarajevo, a small, blissful city where a young boy's life is consumed with street soccer with his casually multi-ethnic group of friends, resentment of his younger sister, and occasional trips abroad with his engineer-cum-beekeeper father, and a young man's life is about poking at the pretensions of the city's elders with American music, bad poetry, and slightly better journalism. And then there is Chicago - war breaking out at home and the city fully under siege, the Hemon family fleeing Sarajevo (with their dog) and all they had ever known, applying for asylum, and Hemon himself starting his own family in this new city. And yet this is not really a memoir. Like Hemon's fiction, 'The Book of My Lives' defies convention and expectation.

She had a notorious affair with H.G. Wells, and their illegitimate son, Anthony, was born at the beginning of the First World War. Life for East End families like Pat's was always a struggle. She worked for years in Tate & Lyle's sugar factory while her husband Charlie took on two jobs so their growing family could survive. Until one day Charlie came home with a brilliant idea - they should take over The Rising Sun pub in Bromley-by-Bow.

In this charming memoir Pat describes her years as a pub landlady and vividly evokes the East End community she served in the 1960s, the extraordinary characters she encountered and the changes that swept through society at that time. She also reveals why she and Charlie moved to Essex, and what it felt like to become a star of "The Only Way is Essex" in her seventies.

Small Wars, Faraway Places

Burleigh, Michael

The collapse of Western colonial empires after the Second World War led to any number of vicious struggles for power whose bloody consequences haunt us still. Acclaimed historian Michael Burleigh's brilliant analytic skills and clear eye for common themes underpins this powerful account of those struggles. He takes us on a historical journey from Palestine to Pakistan, from Cuba to Indo-China and reframes mid-20th century history by forcing us to look away from the Cold War to the hot wars that continue to afflict us. The result is a dazzling work of history, which examines the death of colonialism with passion, insight and genuine understanding of what it feels like to be caught in the middle of realpolitik.

1990: Russians Remember

Tait, Arch

Although 1989 and 1991 witnessed more spectacular events, 1990 was a year of embryonic change in Russia: Article 6 of the constitution was abolished, and with it the Party's monopoly on political power. This fascinating collection of documentary evidence crystallises the aspirations of the Russian people in the days before Communism finally fell.

It charts – among many other social developments – the appearance of new political parties and independent trade unions, the rapid evolution of mass media, the emergence of a new class of entrepreneurs, a new openness about sex and pornography and a sudden craze for hot-air ballooning, banned under the Communist regime.

Power, Inc

Rothkopf, David

Power, Inc.

The Epic Rivalry Between Big Business and Government—and the Reckoning That Lies Ahead

David Rothkopf

Author of Superclass

One of the world's leading experts on power offers a penetrating look at the rise of private interests. The rise of private power may be the most important and least understood trend of our time. David Rothkopf provides a fresh look at how we have reached a point where thousands of companies have greater power than all but a handful of states.

Beginning with the story of an inquisitive Swedish goat inadvertently triggering the birth of the oldest company still in existence, 'Power, Inc.' follows the rise and fall of kings and empires, the making of great fortunes, and the chaos of bloody revolutions and traces the bruising jockeying for influence right up to today's financial crises, growing inequality, broken international system, and battles over the proper role of government and markets.
