**The Political Bubble\***  
Mark Latham

Australians once had a general level of trust in the democratic process. While we got on with our lives, we assumed our politicians had our best interests at heart. Not anymore. That trust has collapsed. Mark Latham joined the Labor Party in the late 1970s hoping to improve people's lives through parliamentary service. Twenty-five years later the Opposition Leader ended up as disillusioned as the rest of us. The scorching honesty of *The Latham Diaries* ensured he'd burned his political bridges, but ostracism from the Canberra Club has its advantages. In *The Political Bubble* Mark Latham is free to explore how parliamentary democracy on both sides of the house has lost touch with the people it's supposed to represent. Can our parliamentary system realign itself with the community's expectations or are we on an endless race to the bottom?

**Fletch\***  
Dustin Fletcher

Dustin Fletcher is the most watched AFL footballer of all time. In 22 seasons, almost 20 million fans have seen 'Fletch' play a record number of games for his beloved Essendon Bombers on the way to becoming one of the most respected and enduring players in Australian Rules history. *Fletch* is the autobiography of a teen superstar, prodigal son of Essendon legend Ken Fletcher, youngest member of the flag-winning 'Baby Bombers' and staunch defender of the realm against some of the greatest full forwards of all time: Ablett, Lockett, Carey, Kernahan, Jakovich, Fevola. But this is no ordinary man and *Fletch* is no ordinary sports saga. Fletcher takes us inside the highs and the lows, including the first-ever insider account from the ASADA drug crisis that rocked Essendon in 2012. Honest, explosive, poignant and entertaining, *Fletch* reads as 'Fletch' kicks - straight, strong and true...

**Silk Road\***  
Eileen Ormsby

It was the "eBay of drugs", a multi-billion dollar empire. And behind its heart of darkness was the FBI's Most Wanted Man, a mysterious crime czar dubbed "Dread Pirate Roberts". SILKROAD.COM lay at the heart of the Dark Web - a parallel universe of porn, guns, assassins and drugs. Lots of drugs. With the click of a button LSD, heroin, meth, coke, any illegal drug imaginable, would wing its way by regular post to any dealer or user in the world. How was this email-order drug cartel even possible? And who was the mastermind all its low roads led to? This is the incredible true story of Silk Road's rise and fall, told with unparalleled access to the main players - including alleged founder and kingpin Dread Pirate Roberts himself - by lawyer and investigative journalist Eileen Ormsby. A stunning crime story with a truth that explodes off the page.

**Khaki Crims and Desperadoes\***  
Russell Robinson

When Australia entered World War I, volunteers swarmed to enlistment centres in their thousands. But among the recruits were criminals with extensive police records. Some had assumed false names to start lives afresh; others made no secret of their criminal histories. Once in uniform, some became persistent deserters, fleeing the training depots before embarkation. Those who did make it overseas spent much of the time going AWOL to avoid being sent to the front. There were some who showed great courage and endeavour under fire, and were awarded medals and citations. In most cases, however, the encouragement failed to distract them from their misbehaviour. Others used their military training to expand their unlawful enterprises overseas, joining gangs of like-minded desperate diggers.

**The Crossroad\***  
Mark Donaldson

On 2 September 2008, in eastern Afghanistan, Trooper Mark Donaldson made a split-second decision that would change his life. His display of extraordinary courage that day saw him awarded the Victoria Cross for Australia, making him the first Australian to receive our highest award for bravery since 1969. Yet Mark's journey to those crucial moments in Afghanistan was almost as exceptional as the acts that led to his VC. He was a rebellious child and teenager, even before the death of his father in his mid-teens. A few years later, his mother disappeared, presumed murdered. Mark's decisions could have easily led him down a path of self-destructiveness and petty crime. But he chose a different road: the army. It proved to be his salvation. He found himself a natural soldier, progressing to the SAS, the peak of the Australian military.

**Your Cherished Baby\***  
Howard Chilton

The way we nurture our babies has a lifelong effect on their health and happiness. What many of us have known instinctively is now a matter of science. Study after study proves that how we hold, feed, play with and settle our babies is a major factor in their long-term wellbeing. Dr Chilton introduces mothers to a complete approach for settling, feeding and engaging their 0-2 infants. He explains the neurological processes in this early bonding period. He debunks the myth of baby routines, provides a compelling explanation for colic and excessive crying, and argues for the introduction of varied foods to develop of child's palate and to guard against obesity later in life. Most prevalent to all sleep-deprived parents, Dr Chilton presents a practical alternative to controlled crying, a currently popular sleep settling technique that he regards as inhumane.

### On the Road with Kids\*

John Ahern

*It's a life-changing trip. Take it!* John Ahern had a high-flying job, big house, loving wife and two great kids. But if this was success why did he sense he was failing as a husband and father? So John does something insane. He quits the corporate world and buys a busted-up campervan online to chase an improbable dream: a year travelling together as a family... on the road with kids. From the North Pole to Africa's highest peaks, John and his family get mugged by monkeys, charmed by snake handlers, and challenged by life without phone and email. Along the way John creates a life less ordinary and evolves into a connected partner and Dad. **On the Road with Kids** is a funny, messy and inspiring adventure all families will love.

### The Aitch Factor\*

Susan Butler

*Only dead languages don't change; living ones change all the time.* From aitch to amazeballs, from mondegreens to man boobs, there is no topic too controversial or complex for Australia's most influential editor, Susan Butler. Sue, long-time editor of the Macquarie Dictionary, takes you on an insightful, often hilarious exploration of the words you think you know and a few you've never heard of. She looks at why we keep changing our pronunciation of Beijing, when to use a hyphen, why we really should just take a stand and ban the apostrophe, and why saying 'haitch' once meant social death in certain circles. This beautifully designed, quirky gift book is sure to delight word lovers and language aficionados from Melbourne to Mooloolaba.

### Macquarie Little Dictionary\*

Macquarie Dictionary

This edition of the Macquarie Little Dictionary is based on the acclaimed Fifth Edition of the full Macquarie Dictionary. With over 30,000 definitions, it offers a completely up-to-date coverage of the core vocabulary of Australian English in a very handy format. Many new words and meanings have been added, reflecting the ever-changing nature of our language. A few examples are: chia, cloud computing, precycle and pocket-dial. The Macquarie Little Dictionary offers valuable usage notes on words which can cause problems for writers of Australian English. For example, there is a note pointing out the common confusion between allusion (a reference to something) and illusion (something that is not real).

### The Kind Mama

Alicia Silverstone

Infertility is on the rise globally, affecting as many as one in six couples. But instead of considering diet and lifestyle factors, doctors pump their patients full of expensive and invasive fertility treatments. Once pregnant, women just accept that carrying a baby will be the gassy, swollen, irritable, sleepless nightmare that has become the new normal-and then assume that new motherhood will be just as challenging, from breastfeeding woes to screaming fits. It doesn't have to be that way. In **The Kind Mama**, Alicia Silverstone has created a comprehensive and practical guide empowering women to take charge of their fertility, pregnancy, and first 6 months with baby.

### The Night The Music Died

Ian Heads

Western Division shocked the rugby league world in 1974 by winning the inaugural Amco Cup. It is the stuff of legend, how a group of uncomplicated and unassuming footballers from western NSW came together to beat the city slickers. Acclaimed author Ian Heads has revisited the miracle and the men who made it. They were the last of their kind; they remain heroes of the bush. Their biggest star was a man nicknamed 'TV Ted' Ellery. In the middle of their Cup campaign, they confronted Great Britain in what might have been the most violent game ever played. Heads has uncovered the referee's story of this clash, who he feared for his life after the game as the police helped to get him out of town. Yet it is only one remarkable part of a sporting story like no other.

### The Jail Busters: The Secret Story of MI6

Robert Lyman

In February 1944, the French Resistance in the Amiens area was in turmoil. Its strength had been decimated by German aggression and the work of a number of traitors in their midst, and hundreds of its members languished in the city's formidable jail, awaiting an almost certain death at the hands of their captors. When two Allied intelligence officers were incarcerated alongside them it became clear that immediate action was imperative. What followed was a precision air attack on the prison, of hitherto unrivalled daring, carried out by the RAF's elite 2nd Tactical Air Force. These pilots' bravery and skill created a breach in the prison's walls that allowed the Nazi's captives to break free.

### Flappers

Judith Mackrell

For many young women, the 1920s felt like a promise of liberty. It was a period when they dared to shorten their skirts and shingle their hair, to smoke, drink, take drugs and to claim sexual freedoms. In an era of soaring stock markets, consumer expansion, urbanization and fast travel, women were reimagining both the small detail and the large ambitions of their lives. In *Flappers*, acclaimed biographer Judith Mackrell follows a group of six women - Diana Cooper, Nancy Cunard, Tallulah Bankhead, Zella Fitzgerald, Josephine Baker and Tamara de Lempicka - who, between them, exemplified the range and daring of that generation's spirit.

### The Little Captive

Lise Kristensen

"I took hold of the fence and pressed my face into the wire, asking myself what I had done to be made a prisoner?" On the Indonesian island of Java, eight-year-old Lise enjoys a happy childhood, thousands of miles away from the war raging in Europe. Then, one day in 1942, her friends and neighbours start to disappear. For two years, Lise and her family were imprisoned in POW camps, surviving starvation, illness and brutal treatment at the hands of their Japanese captors - but they never gave up hope. This is the remarkable true story of a little girl who, even in the darkest depths of war, was able to look beyond the barbed wire, to a time when she would be free. First published as *The Blue Door*.

### 50 Physics Ideas You Really Need to Know

Joanne Baker

We encounter physics before we've even left the house in the morning; an alarm clock tracks time, a mirror reflects light waves and our mobile phones rely on satellites held in their orbit by gravity. Where would we be without the Bernoulli equation to explain how planes fly, electromagnetic waves enabling us to communicate around the world or the discovery of X-rays? In *50 Physics Ideas You Really Need to Know*, Joanne Baker will uncover the physics all around us, from basic concepts like gravity, light and energy through to the complexities of quantum theory, chaos and dark energy. Featuring short biographies of iconic physicists, explanatory diagrams and timelines showing discoveries within their historical context, this book is the perfect guide to the fundamental concepts of physics, making even the most challenging theories easy to understand.
