Summer Secrets

Jane Green

June, 1998: At 27, Catherine Coombs, also known as Cat, is struggling. She lives in London, works as a journalist, and parties hard. Her lunchtimes consist of several glasses of wine at the bar downstairs in the office, her evenings much the same, swigging the free booze and eating the free food at a different launch or party every night. When she discovers the identity of the father she never knew she had, it sends her into a spiral. She makes mistakes that cost her the budding friendship of the only women who have ever welcomed her. And nothing is ever the same after that. June, 2014: Cat has finally come to the end of herself. She no longer drinks. She wants to make amends to those she has hurt. Her quest takes her to Nantucket, to the gorgeous summer community where the women she once called family still live. Despite her sins, will they welcome her again?

Carla Norton

The Living and the Dead in Winsford

Hakan Nesser

A woman arrives in the village of Winsford on Exmoor. She has travelled a long way and chosen her secluded cottage carefully. Her sole intention is to outlive her beloved dog Castor. And to survive the torrent of memories that threaten to overwhelm her. Weeks before, Maria and her husband Martin fled Stockholm under a cloud. The couple were bound for Morocco, where Martin planned to write an explosive novel; one that would reveal the truth behind dark events within his commune of writers decades before. But the couple never made it to their destination. As Maria settles into her lonely new life, walking the wild, desolate moors, it becomes clear that Winsford isn't quite the sanctuary she thought it would be. The Beautiful Librarians

Sean O'Brien

Each poem in Sean O'Brien's superb new collection opens on a wholly different room, vista or landscape, each drawn with the poet's increasingly refined sense of tone, history and rhetorical assurance. *The Beautiful Librarians* is a stock-taking of sorts, and a celebration of those unsung but central figures in our culture, often overlooked by both capital and official account. Here we find infantrymen, wrestlers, old lushes in the hotel bar - but none more heroic than the librarians of the title, those silent and silencing guardians of literature and knowledge who, the poet reminds us, also had lives of their own to be celebrated. Elsewhere we find a 12-bar blues sung by Ovid, a hymn to a grey rose, a writing course from hell, and a very French exercise in waiting. A book of terrific variety of theme and form, *The Beautiful Librarians* is another bravura performance from the most garlanded English poet of his generation.

The Remains

Annie Freud

Annie Freud's new book *The Remains* was inspired by a visit to an exhibition of Sung Dynasty works on paper, and their unselfconscious blending of illustration and poetry. However the book has its imaginative origins in a huge collection of broken household china amassed by the author while digging her garden. Stranger items also came to light: a minute horseshoe, a fossilised scallop shell, a rusted metal silhouette of a hound. These worn shards and talismans soon began work on Freud's singular imagination, and this extraordinary collection of poetry and art is the result. *The Remains* is concerned with what is left when everything seems broken or lost - and the new and unexpected things that happen when they are found again.

The Iron Assassin

Ed Greenwood

On an Earth that is not our own, Victoria never ascended the throne; the House of Hanover held England only briefly before being supplanted by the House of Harninster. It is a time of gaslamps and regularly scheduled airship flights, of trams and steam-driven clockwork with countless smoke-belching stacks. London, the capitol of the Empire of the Lion, is a filthy, crowded, fast-growing city where a series of shocking murders threatens the throne itself. Energetic young inventor Jack Straker believes he has created a weapon to defend the Crown: a reanimated, clockwork-enhanced corpse he can control.

The Not-Dead and the Saved and Other Stories

Kate Clanchy

None of us are perfect, in the way we love, age, or view the world. *The Not-Dead and the Saved* offers us an opportunity for reinvention: of ourselves, those we have lost, and the world in which we live. From a man doomed to spend his life trying to find solutions to cancer; to a new mother haunted by a swaddling, tablet-eating great-aunt; to an intrepid literary agent who travels to the Yorkshire Moors to discover the next big thing, and ends up eating Anne Bronte's rock cakes, we meet a host of characters who are desperately, creatively, and often hilariously trying to evade the underlying truths of their lives.

The Last Act of Love

Cathy Rentzenbrink

In the summer of 1990 - two weeks before his GCSE results, which turned out to be the best in his school - Cathy Rentzenbrink's brother Matty was knocked down by a car on the way home from a night out, suffering serious head injuries. He was left in a permanent vegetative state. For the next eight years, Cathy and her parents took care of Matty - they built an extension onto the village pub where they lived and worked; they talked to him, fed him, bathed him, held him. Most of all, they loved him. But there came a point at which it seemed the best thing they could do for Matty - and for themselves - was let him go. With unflinching honesty and raw emotional power, Cathy describes the unimaginable pain of losing her brother and the decision that changed her family's lives forever.

Fire and Ice

Jonathan Mingle

A thousand years ago in a Himalayan valley, the village of Kumik was founded. For generations, Kumik villagers survived by learning to cultivate their mountain terrain, drawing from the waters of the glacier and snows above the village. But now the glacier is almost gone, and Kumik is dying. Why? As *Fire and Ice* reveals, the culprit is black carbon, the most dangerous pollutant in the world and the least understood. Black carbon absorbs more heat per unit of mass in the atmosphere than greenhouse gases, and contributes as much to melting the glaciers of the Himalaya as carbon dioxide.

In Defence of Selfishness

Peter Schwartz

In Defence of Selfishness refutes widespread misconceptions about the meaning of selfishness and of altruism. Basing his arguments on Ayn Rand's ethics of rational self-interest, Schwartz demonstrates that genuine selfishness is not exemplified by the brutal plundering of an Attila the Hun or the conniving duplicity of a Bernard Madoff. To the contrary, such people are acting against their actual, long-range interests. The truly selfish individual is committed to moral principles and lives an honest, productive, self-respecting life. He does not feed parasitically off other people. Instead, he renounces the unearned, and deals with others-in both the material and spiritual realms-by offering value for value, to mutual benefit.

The Strange Case of the Ricketty Cossack

Ian Tattersall

In his new book human paleoanthropologist Ian Tattersall argues that a long tradition of "human exceptionalism" in paleoanthropology has distorted the picture of human evolution. Drawing partly on his own career from young scientist in awe of his elders to crotchety elder statesman-Tattersall offers an idiosyncratic look at the competitive world of paleoanthropology, beginning with Charles Darwin 150 years ago, and continuing through the Leakey dynasty in Africa, and concluding with the latest astonishing findings in the Caucasus. The book's title refers to the 1856 discovery of a clearly very old skull cap in Germany's Neander Valley. The possessor had a brain as large as a modern human, but a heavy low braincase with a prominent brow ridge.

The Next Africa

Jake Bright and Aubrey Hruby

The Next Africa will change the way people think about the continent. The old narrative of an Africa disconnected from the global economy, depicted by conflict or corruption, and heavily dependent on outside donors is fading. A wave of transformation driven by business, modernization, and a new cadre of remarkably talented Africans is thrusting the continent from the world's margins to the global mainstream. In the coming decades, the magnitude of Africa's markets and rising influence of its people will intersect with other key trends to shape a new era, one in which Africa's progress finally overshadows its challenges, transforming an emerging continent into a global powerhouse.

The Great Parade

Peter Filichia

It was the Broadway season when Barbra Streisand demanded "Don't Rain on My Parade" and Carol Channing heard the waiters at the Harmonia Gardens say "Hello, Dolly!". From June 1, 1963 through the final day of May 31, 1964, theatergoers were offered 68 different productions: 24 new plays, 15 new comedies, 14 new musicals, 5 revivals of plays, 3 revues, 3 plays in Yiddish, 2 in French, 1 double-bill and even 1 puppet show. Peter Filichia's *The Great Parade* will look at what a Broadway season looked like a half-century ago analyzing the hits, the flops, the trends, the surprises, the disappointments, the stars and even how the assassination of JFK and the arrival of the Beatles affected Broadway.
