Kiss Me First

Moggach, Lottie

He didn't mention her name. He just said that a woman had come to him, desperate to kill herself, but not wanting her family and friends to know. And had the idea to employ someone to pretend to be her online, so that no one would be able to tell she was not still alive.

What if the friend you were writing to, confiding in or falling in love with wasn't who you thought they were at all? What if the person replying in their name was someone you had never met, and would never even notice if you passed them in the street? And what if you had no way of knowing until it was too late...?

Walls of Byzantium, The: Mistra Chronicles 1

Heneage, James

Fifteenth-century Europe: a time of warring states and ruthless growing empires, divided churches and dynamic traders. In the midst of growing unrest, rivals battle for this treasure, each desperate to secure its power for their own nations. But no-one can discover its whereabouts; nor even knows if it is still in the possession of those born to guard it...

Four remarkable characters from four leading families provide the story as their crossed allegiances, plots and passions are played out on this epic scale. Yet the private lives are there too, and in castle and church, in siege and on battlefield, the love, fear, violence and reluctant loyalty to creed or destiny propel the characters to their fates.
