**W is for Wasted**

Sue Grafton

"Two dead bodies changed the course of my life that fall. One of them I knew and the other I'd never laid eyes on until I saw him in the morgue." The first was a local PI of suspect reputation. He'd been gunned down near the beach at Santa Teresa. It looked like a robbery gone bad. The other was on the beach six weeks later. He'd been sleeping rough. Probably homeless. No identification. A slip of paper with Private Investigator Kinsey Millhone's name and number was in his pants pocket. The coroner asked her to come to the morgue to see if she could ID him. Two seemingly unrelated deaths, one a murder, the other apparently of natural causes. But as Kinsey digs deeper into the mystery of the John Doe, some very strange links begin to emerge.

Perhaps he's on to something. **The Human Part** lays bare the absurdities of modern society in the most vicious and precise manner imaginable. ## Hatchet Job

Mark Kermode

Starting with the celebrated TV fight between Ken Russell and Alexander Walker (the former hit the latter with a rolled up copy of his *Evening Standard* review!) and ending with his own admission to Steven Spielberg of a major error of judgement, Mark Kermode takes us on a journey across the modern cinematic landscape. Mark questions the future of any and all genuinely impartial criticism when reviews are systemically corrupted by bribery, vote-rigging, cyber-stalking, and sock-puppetry. And he asks that crucial question, what kind of films would we have if we listened to what the audience thinks it wants? Like its predecessor, *The Good, The Bad & The Multiplex*, *Hatchet Job* blends historical analysis with trenchant opinion, bitter personal prejudices, autobiographical diversions and anecdotes, and laugh-out-loud cynical humour. It's the perfect book for anyone who's ever expressed an opinion about a movie.

The gripping memoir of Navy Cross, Silver Star, Bronze Star, and Purple Heart recipient SEAL Lieutenant Mark L. Donald. As a SEAL and combat medic, Mark served his country with valorous distinction for almost twenty-five years and survived some of the most dangerous combat actions imaginable. From the rigors of BUD/S training to the horrors of the battlefield, *Battle Ready* dramatically immerses the reader in the unique life of the elite warrior-medic who advances into combat with life-saving equipment in one hand and life-taking weapons in the other. It is also an uplifting human story that reveals how a young Hispanic American bootstrapped himself out of a life that promised a dead-end future by enlisting in the military.

## The City of Abraham

Edward Platt

*The City of Abraham* is a journey through one of the world's most divided cities - Hebron, the only place in the West Bank where Palestinians and Israelis live side by side. It begins with a hill called Tel Rumeida, the site of ancient Hebron, where the patriarch Abraham - father of the Jews and the Arabs - was supposed to have lived when he arrived in the Promised Land. Platt tells the history of the hill and the city in which it stands, shares the stories of residents and settlers, and illuminates the mythic roots of the struggle to control the land.

## Siegfried Sassoon

Max Egremont

The life of Siegfried Sassoon has been recorded and interpreted in literature and film for over half a century. He is one of the great figures of the First World War, and *Memoirs of a Fox-Hunting Man* and *Memoirs of an Infantry Officer* are still widely read, as are his poems. Sassoon was a genuine hero, a brave young officer who also became the war's most famous opponent, risking imprisonment and even a death sentence by throwing his Military Cross into the Mersey. But Sassoon was more than the embodiment of a romantic ideal; he was in many senses the perfect product of a vanished age. And many questions about his character, unique experience and motivations have remained unanswered until now.

## Murder At Wrotham Hill

Diana Souhami

*Murder at Wrotham Hill* takes the killing in October 1946 of Dagmar Petrzywalski as the catalyst for a compelling and unique meditation on murder and fate. Dagmar, a gentle, eccentric spinster, was the embodiment of Austerity Britain's prudence and thrift. Her murderer Harold Hagger's litany of petty crimes, abandoned wives, sloughed-off identities and desertion was its opposite. The texture of their lives and the impression their experiences made on their characters fated their meeting on that bleak autumn morning - and determined the manner in which both would meet their death.

## Crap Towns Returns

Dan Kieran

The genuinely rough guide to Britain is back. Ten years after it first lifted the concrete slab in the garden of England, *Crap Towns* returns to dish the dirt on the latest planning disasters, urban blight and posh blighters disfiguring our nation. "My friends and I once spent an evening in Thetford. Some people threw a cucumber at us." "Southampton: the only place in the UK I've ever seen someone get on a bus and nonchalantly spark up a crack pipe." "Bacup long claimed to have the shortest street in Britain - Elgin Street - but recently lost the title to Ebenezer Place, an even shorter street in Wick, to the fury of locals, who complained that the Scottish rival was only 'a corner'."

## Does Your Rabbi Know You're Here?

Anthony Clavane

Jews don't do football. Or, at least, they don't play it. This, at any rate, is the myth. Apart from the relatively recent appearance of high-profile foreign owners like Roman Abramovich, Randy Lerner and the Glazers, the Jewish impact on the game has appeared to be on the light side. Anthony Clavane uncovers a secret history of Jewish involvement in English football. Featuring interviews with fans, directors, agents, hangers-on, players and managers it analyses and explains, but above all it entertains. *Does Your Rabbi Know You're Here?* takes a long hard look at how and why Jews - from Gutmann to Grant, from Goldberg to Glazer - have changed the game; and been changed by it in turn.

## Relish: My Life in the Kitchen

Lucy Knisley

Lucy Knisley loves food. The daughter of a chef and a gourmet, this talented young cartoonist comes by her obsession honestly. In her forthright, thoughtful, and funny memoir, Lucy traces key episodes in her life thus far, framed by what she was eating at the time and lessons learned about food, cooking, and life. Each chapter is bookended with an illustrated recipe - many of them treasured family dishes, and a few of them Lucy's original inventions. A welcome read for anyone who ever felt more passion for a sandwich than is strictly speaking proper, *Relish* is a graphic novel for our time: it invites the reader to celebrate food as a connection to our bodies and a connection to the earth, rather than an enemy, a compulsion, or a consumer product.

## Hebrides

Peter May and David Wilson

The landscape of the Outer Hebrides, with its stark cliffs, ghostly mists and lonely beaches, has become a definitive character of Peter May's Lewis trilogy. In *Hebrides*, readers will accompany him on an odyssey in prose and images, through a history of the Vikings' 'Long Island' and his own deep personal connection with the islands that influenced his bestselling work. Travelling as if alongside his protagonist Fin Macleod, he describes the island life - as bewitching as it is treacherous - his encounter with the bird-hunters of Sula Sgeir, the savage seas of Ness and the churches of Eriskay.
